

Amendment to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A control device for remotely controlling a controlled device, comprising:
a display unit ~~which~~ that displays a control panel of the controlled device; ~~and~~
a control unit that produces operation information; and
a communication unit ~~for sending~~ that sends the operation information to the controlled device, ~~the operation information including a shifting history of a cursor displayed on the control panel,~~
~~wherein the shifting history represents a list of buttons depressed by the cursor~~
wherein the operation information includes a shifting history of a cursor displayed on the control panel, and
wherein the shifting history includes identification information of each button depressed by the cursor in a single operation.
2. (Previously Presented) A control device according to claim 1, wherein said control device is a television.
3. (Previously Presented) A control device according to claim 2, wherein the controlled device is one of a video recorder and a digital photo-album device.
4. (Previously Presented) A control device according to claim 1, wherein said communication unit communicates with the controlled device via a serial bus.
5. (Currently Amended) A controlled device controlled remotely by a control device, comprising:

a communication unit that sends a control panel of the controlled device to the control device, and receives operation information from the control device, ~~the operation information including a shifting history of a cursor displayed on the control panel;~~ and

a control unit ~~which~~ that controls said controlled device using the operation information,

wherein the operation information includes a shifting history of a cursor displayed on the control panel, and

wherein the shifting history ~~represents a list of buttons~~ includes identification information of each button depressed by the cursor in a single operation.

6. (Previously Presented) A controlled device according to claim 5, wherein the control device is a television.

7. (Previously Presented) A controlled device according to claim 6, wherein said controlled device is one of a video recorder and a digital photo-album device.

8. (Previously Presented) A controlled device according to claim 5, wherein the communication unit communicates with the control device via a serial bus.

9. (Previously Presented) A control device according to claim 2, wherein the serial bus conforms to IEEE 1394-1995 standard.

10. (Previously Presented) A control device according to claim 3, wherein said communication unit communicates with the controlled device via a serial bus.

11. (Previously Presented) A controlled device according to claim 8, wherein the serial bus conforms to IEEE 1394-1995 standard.

12. (Previously Presented) A controlled device according to claim 7, wherein said communication unit communicates with the control device via a serial bus.
